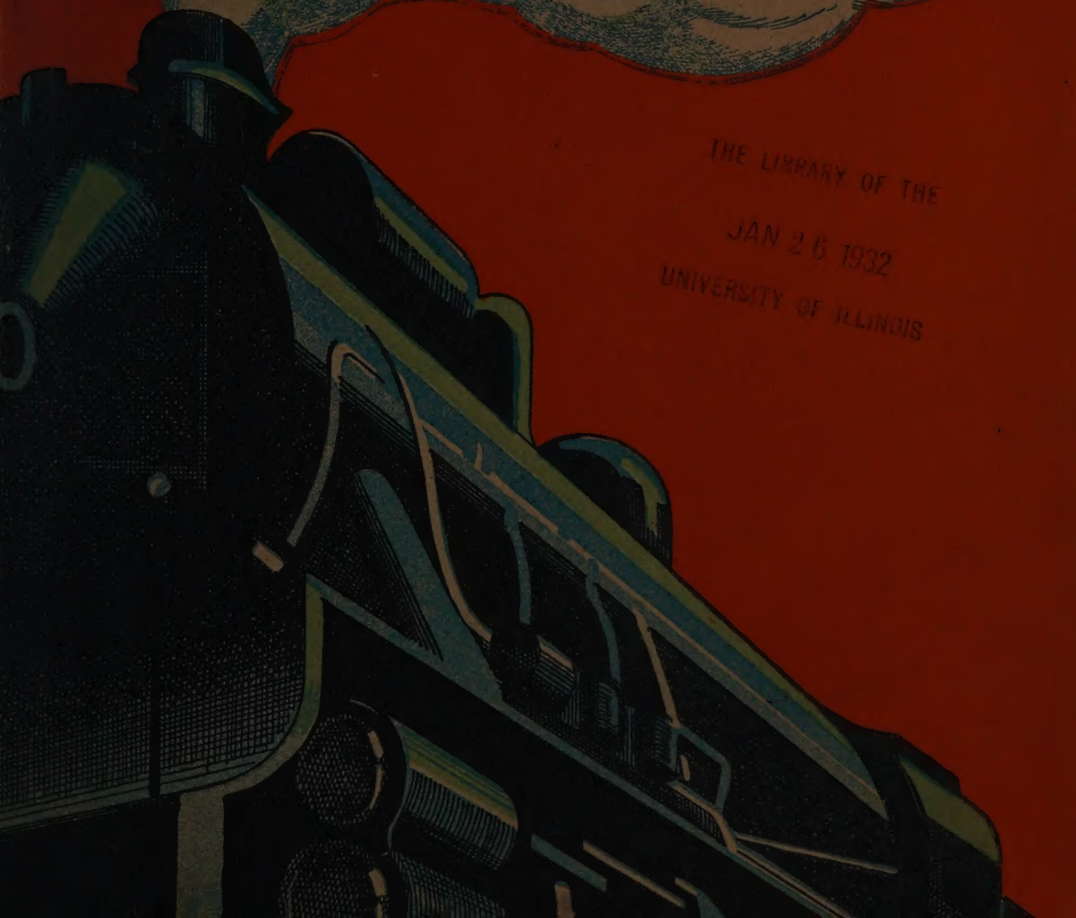
JANUARY 1932.

Monthly Bulletin of the International Railway Congress Association

(English Edition)



THE LIBRARY OF THE
JAN 26 1932
UNIVERSITY OF ILLINOIS

THERE ARE EIGHT

WESTINGHOUSE

SYSTEMS

OF CONTROL FOR OUTLYING SIDINGS

1. By ground frame, locked by Annett's Key.
2. By ground frame, and Annett's Key with Electric Key Transmitter.
3. By Electric Switch Lock.
4. By the Double Wire System.
5. By low-voltage quick-acting Electric Point Machine, operated from batteries.
6. By high-voltage Electric Point Machine where electric supply is available.
7. By Electric Point Machine operated through Hand Generator.
8. By Centralised Traffic Control System.

There is no situation which cannot be met by one or the other of these methods

The Westinghouse Brake & Saxby Signals Co. Ltd.

CONTENTS

OF THE

14th YEAR OF THE ENGLISH EDITION.

No. 1. — January 1932.	PAGES.	NUMBERS of the decimal classification.
I. **Transportation by railway and by road motor vehicles.** Competitive and co-ordinated working, by Felice CORINI	1	656 .1 & 656 .2
II. **Locomotive experimental stations,** by H. N. GRESLEY	12	621 .131.3
III. **Standardisation of locomotives** on the Jugoslav State Railways, by R. P. WAGNER	25	621 .13 (.497.1)
IV. **Passenger subway at** Padua Central Station, by L. FERRARESE	45	656 .211.5 (.45)
V. Modern **vibration testing machines,** by W. SPÄTH	52	624 .2
VI. The **application of the pneumatic tyre to rail motor cars** (The Michelines), by G. DELANGHE	57	621 .43(.44)
VII. The influence of **springs in locomotive derailments,** by T. H. SANDERS	67	621 .135.3
VIII. **Car retarders** accomplish definite savings in yard operation	77	625. 253 (.73) & 656 .254 (.73)
IX. MISCELLANEOUS INFORMATION :		
1. The « measured **packing** » system of **permanent way**	81	625 .144.4 (.44) & 625 .172 (.44)
2. New-type **buffer stop** installed at Euston	84	625 .156 (.42)
3. **Conveyance of large transformers**	88	625 .245 (.42) & 656 .226 (.42)
X. OFFICIAL INFORMATION issued by the Permanent Commission of the International Railway Congress Association :		
Meeting of the Permanent Commission held on the 17 December 1931	91	385. (06.111
XI. MONTHLY BIBLIOGRAPHY OF RAILWAYS	1	016 .385

No. 2. — February 1932.		
I. **Safety device for railway trains and vehicles operated by one man,** by Giuseppe BIANCHI	93	621 .337
II. **The manufacture of precast reinforced concrete parts** on the Belgian National Railway Company, by C. LEMAIRE and J. SCHOTTE	103	691 (.493) & 721 .9 (.493)
III. **Cementation in the Severn Tunnel,** Great Western Railway (Great Britain), by R. CARPMAEL	126	625 .13 (.42)
IV. New **Pacific type locomotives,** Pennsylvania Railroad, by E. C. POULTNEY	131	621 .132.3 (.73)
V. The **technique of marshalling in goods yards in the light of rationalisation and mechanisation,** by Herr KAEMPF	143	656 .212.5
VI. The Strowger-Hudd system of **automatic train control**	157	656 .254 (.42)

949189

No. 2. — February 1932 (Continued).	Pages.	Numbers of the decimal classification.
VII. Current Practice :		
Improvements at Stratford locomotive depot. **Boiler washing plant**	163	621 .138.3 (.42)
London North Eastern Railway rebuilt **4-4-2 type express passenger locomotives fitted with booster**	169	621 .134.1 (.42)
VIII. Miscellaneous information :		
1. New 152-lb. **flat bottomed rails**, Pennsylvania Railroad, by T. J. Skillman	173	625 .143 (.73)
2. **Rail-omnibuses** on the German Railways	176	621 .43 (.43)
3. The Edna **mechanical lubricating** system	178	621 .134.5
IX. Official information issued by the Permanent Commission of the International Railway Congress Association :		
Questions for discussion at the Cairo Session (1933) with the names of the reporters.	183	385. (06.111
X. Monthly bibliography of railways.	15	016 .385

No. 3. — March 1932.		
I. **All-metal covered wagons** for the Dutch East Indies Railway Company, by W. H. van Schouwenburg	191	625 .243 (.92) & 625 .246 (.9
II. **Application of the « belt system »** to the Belgian National Railway Company's Antwerp-North **marshalling yard**, by F. Dessent and J. Colle	208	385 .587 (.493) & 656 .212.5 (.493)
III. The **life of rails**, by P. Mast	219	625 .143.3
IV. **The influence of the design and the condition of passenger carriages on their motion**, by Paul Speer.	232	625 .2 (0
V. **New materials will cut locomotive repair costs**, by C. E. Barba	268	62. (01 & 669 .1
VI. Current practice :		
All-metal rolling stock of the International Sleeping Car Company	277	625 .232 (.4)
VII. Miscellaneous information :		
Transverse fissures can now be located	283	625 .143.3 (.73) & 625 .245 (.73)
VIII. Monthly bibliography of railways	29	016 .385

No. 4. — April 1932.		
I. **Methods to be used to increase the mileage run by locomotives between two repairs** including lifting. (Question IV, 12th Congress). Report No. 1 (America, Great Britain, Dominions and Colonies, China and Japan), by Sir Henry Fowler	287	621 .138
II. **The protection of level crossings in view of modern developments in road traffic.** (Question I, 12th Congress). Report No. 1 (America, Great Britain, Dominions and Colonies, China, Japan and Egypt), by A. Newlands	329	625 .162 & 656 .254

	PAGES.	NUMBERS of the decimal classification.
No. 4. — April 1932 (CONTINUED).		
III. **Electrification of railways from an economic point of view. Selection of sites for generating stations. Choice of the kind of current. Safety precautions**, etc. Question V, 12th Congress). Report No. 1 (America, Great Britain, Dominions and Colonies, China and Japan), by S. WITHINGTON	379	621 .33
. **Use of rail motor cars on secondary lines**. (Question XIII, 12th Congress). Report No. 1 (Great Britain, Dominions and Colonies, United States of America, China and Japan, by A. D. J. FORSTER	451	621 .132.8 & 625 .616
V. MONTHLY BIBLIOGRAPHY OF RAILWAYS	47	016 .385
No. 5. — May 1932.		
I. **Some interesting examples of weight saving in railway rolling stock** (more especially for heavy suburban service), **by the use of light metals**, by Ad. M. HUG . . .	573	625 .235 & 625 .246
II. **Allocation of freight rolling stock. Investigation into the turn-round of goods vehicles. Separation of the elements included in it. Methods of reducing the period of turn-round.** (Question VII, 12th Congress). Report No. 1 (Germany, Denmark, Finland, Great Britain, Dominions and Colonies, Sweden, America, China and Japan, Norway, Netherlands and Colonies), by W. F. H. van RYCKEVORSEL	609	656 .223.2
III. **Organisation for carrying small consignments of goods and the most suitable methods for their delivery with the least delay. Use and selection of fixed and mechanical transhipping plants.** (Question VIII, 12th Congress). Report No. 2 (All countries except America, Great Britain, Dominions and Colonies, China, Japan, Belgium, France, Spain, Holland, Portugal and their Colonies, Switzerland, Finland, Luxemburg, Norway and Sweden, by C. FETTARAPPA	621	656 .212.6 & 625 .225
. **The use of mechanical appliances in the permanent way maintenance and in track relaying.** (Question II, 12th Congress). Report No. 1 (United States of America, Great Britain, Dominions and Colonies, China and Japan), by F. M. THOMSON.	661	625 .144.4 & 625 .17
V. **Automatic train control and train stop. Track equipment. Locomotive fittings. Methods used for repeating signals on the locomotives. Devices intended to ensure the attention of the drivers.** (Question IX, 12th Congress). Report No. 2 (America, Great Britain, Dominions and Colonies, China and Japan), by G. H. CROOK . .	705	656 .254
VI. **Competition between or joint working of railways and airways, or railways and roadways.** An investigation from the technical, commercial and contractual points of view. (Question XI, 12th Congress). Report No. 1 (America, Great Britain, Dominions and Colonies, China and Japan), by E. C. COX	729	656
VII. **Co-ordination of operation as between heavy and light railways.** (Question XII, 12th Congress). Report No. 1 (Continent of Europe), by L. JACOBS	775	625 .61. (0
VIII. **Automatic train control and train stop. Track equipment. Locomotive fittings. Methods used for repeating signals on the locomotives. Devices intended to ensure the attention of the drivers.** (Question IX, 12th Congress). Report No. 1 (All countries except America, Great Britain, Dominions and Colonies, China, Japan, Belgium, Spain, France, Italy, Netherlands, Portugal and their Colonies, Denmark, Finland, Luxemburg, Norway and Sweden), by W. STÄCKEL	811	656 .254
IX. **Permanent way relaying**, by F. TEITELIN.	842	625 .173
X. MONTHLY BIBLIOGRAPHY OF RAILWAYS	61	016 .385

No. 6. — June 1932

	PAGES.	NUMBERS of the decimal classification.
I. **Electrification of railways from an economic point of view. Selection of sites for generating stations. Choice of the kind of current. Safety precautions, etc.** (Question V, 12th Congress). Report No. 3 (All countries except America, Great Britain, Dominions and Colonies, China, Japan, Belgium, Spain, France, Italy, Holland, Portugal and their Colonies, Denmark, Finland, Luxemburg, Norway and Sweden), by Dr. E. Huber-Stockar and Mr. H. Eckert.	857	621 .33
II. **Organisation for carrying small consignments of goods and the most suitable methods for their delivery with the least delay. Use and selection of fixed and mechanical transhipping plants.** (Question VIII, 12th Congress). Report No. 1 (Belgium, France, Spain, Holland, Portugal and their Colonies, Switzerland, Denmark, Finland, Luxemburg, Norway and Sweden), by Messrs. Hauterre and Mermont.	907	656 .212.6 & 656 .225
III. **The use of mechanical appliances in the permanent way maintenance and in track relaying.** (Question II, 12th Congress). Report No. 3 (All countries except America, Great Britain, Dominions and Colonies, China, Japan, Belgium, Spain, France, Italy, Holland, Portugal and their Colonies, Denmark, Finland, Luxemburg, Norway, Sweden and Switzerland), by Mohamed Kamel El-Khishin Bey . . .	953	625 .144.4 & 625 .17
IV. **Methods to be used to increase the mileage run by locomotives between two repairs including lifting.** (Question IV, 12th Congress). Report No. 2 Germany, Denmark, Finland, Norway, Spain, Netherlands, Portugal and their Colonies, Sweden and Switzerland), by E. Student	983	621 .138
V. **The relationship between the vehicle and the track, to ensure safety at high speeds.** (Question III, 12th Congress). Report No. 1 (America, Great Britain, Dominions and Colonies, China and Japan), by Dr. S. Matsunawa, Dr. S. Kurokochi and Dr. K. Asakura	1045	621 .135 (01, 625 .14 (01 & 625 .22
VI. **Use of rail motor cars on secondary railway lines.** (Question XIII, 12th Congress). Report No. 2 (Continent of Europe except Italy), by F. Level	1133	621 .132.8 & 625 .616
VII. **New plants, apparatus and methods for carrying out scientific investigations on locomotives and their component parts,** by Herr Karl Günther and Herr Solveen.	1171	621 .131.3
VIII. Monthly bibliography of railways	77	016 385

No. 7. — July 1932.

I. Instances of the **application in a railway department of the scientific organisation of work. Cooperation of the staff towards increased efficiency and its participation in the profits.** (Question X, 12th Congress). Report No. 2 (All countries except Spain, Portugal, France, Great Britain, its Dominions and Colonies, Belgium, Luxemburg, Holland, Denmark, Norway, Sweden, Finland, Germany, Switzerland, Czechoslovakia, Bulgaria, Greece, Rumania, Yugoslavia, Turkey and Poland), by Luigi Tosti and Carlo Valeri	1211	385 .524 & 385 .587
II. **Allocation of freight rolling stock. Investigation into the turn-round of goods vehicles.** Separation of the elements included in it. Methods of reducing the period of turn-round. (Question VII, 12th Congress). Report No. 2 (Belgium, Spain, France, Italy, Portugal and their Colonies, Luxemburg and Switzerland), by O. Gaeremynck	1259	656 .223.2
III. **The protection of level crossings in view of modern developments in road traffic.** (Question I, 12th Congress). Report No. 3 (All countries except America, Great Britain, Dominions and Colonies, China, Japan, Egypt, Belgium, Spain, France, Italy, Holland, Portugal and their Colonies, Denmark, Finland, Luxemburg, Norway, Sweden and Switzerland), by A. Miszke.	1283	625 .162 & 656 .254

No. 7. — July 1932 (Continued).	PAGES.	NUMBERS of the decimal classification.
IV. Instances of the **application in a railway department of the scientific organisation of work. Cooperation of the staff towards increased efficiency and its participation in the profits.** (Question X, 12th Congress). Report No. 1 (Belgium, Spain, France and their Colonies, Great Britain, Dominions and Colonies, Luxemburg; Holland, Portugal and their Colonies), by E. Soulez and M. Bloch.	1329	385 .524 & 385 .587
V. The new **rail motor coaches with internal combustion motor**, by Max Breuer . .	1423	621 .43
VI. **4-8-2 type locomotive**, No. 241001, **for fast heavy trains**, of the French Est Railway.	1440	621 .132.3 (.44)
VII. Current practice :		
London and North Eastern S. 1 type **0-8-4 tank engine** No. 6171, **fitted with reversible booster**	1450	621 .134.1
VIII. Miscellaneous information :		
1. The Baldwin **Diesel-electric locomotive**.	1454	621 .335 & 621 .43
2. 450-H. P. Sulzer **Diesel-electric locomotive** for the Royal Siamese Railways .	1460	621 .335 & 621 .43
IX. New books and publications :		
Dienstvorschrift für die Ausführung von Zeitaufnahmen in den Reichsbahn-Ausbesserungswerken und den Ausbesserungsbetrieben der Bahnbetriebs- und Bahnbetriebswagenwerke. (**Instructions on the timing of operations in the main workshops,** in the running repair shops, and in the wagon shops) by the Deutsche Reich-bahn Gesellschaft (German State Ry. Co)	1465	385 .587 (.43), 621 .138.5 (.43) & 625 .26 (.43)
X. Monthly Bibliography of Railways	91	016 .385
No 8. — August 1932.		
I. **All-metal rolling stock : carriages and wagons. Use of light metals and alloys. Use of autogenous welding.** (Question VI, 12th Congress). Report No. 1 (America, Great Britain, Dominions and Colonies, China and Japan), by H. N. Gresley . . .	1467	625 .2 (0
II. **Methods to be used to increase the mileage run by locomotives between two repairs including lifting** (Question IV, 12th Congress). Report No. 3 (All countries except America, Great Britain, Dominions and Colonies, China, Japan, Germany, Denmark, Finland, Norway, Spain, Netherlands, Portugal and their Colonies, Sweden and Switzerland). by Richard Klatovsky	1539	621 .138
III. **The use of mechanical appliances in the permanent way maintenance and in track relaying.** (Question II, 12th Congress). Report No. 2 (Mexico, Central and South America, Belgium, Spain, France, Italy, Holland, Portugal and their Colonies, Denmark, Finland, Luxemburg, Norway, Sweden and Switzerland), by Domingo Mendizabal Fernandez and Joaquin Garcia Garin	1567	625 .144.4 & 625 .17
IV. **The protection of level crossings in view of modern developments in road traffic.** (Question I, 12th Congress). Report No. 1 (Belgium, Spain, France, Italy, Netherlands, Portugal and their Colonies, Denmark, Finland, Luxemburg, Norway, Sweden and Switzerland), by Mr. Baticle.	1641	625 .162 & 656 .254
V. Methods of **increasing the average speed in railway operation**, by H. Nordmann .	1695	656 .222.1
VI. New books and publications :		
Universal Directory of Railway Officials.	1706	385. (02
VII. Monthly bibliography of railways	105	016 .385

No. 9. — September 1932.

	PAGES.	NUMBERS of the decimal classification.
I. **Railless electric traction** from the point of view of its economic results, by Felice Corini	1707	621 .33 & 656 .1
II. **Electrification of railways from an economic point of view. Selection of sites for generating stations. Choice of the kind of current. Safety precautions, etc.** (Question V, 12th Congress). Report No. 2 (Belgium, Spain, France, Italy, Netherlands, Portugal and their Colonies, Denmark, Finland, Luxemburg, Norway and Sweden). by Messrs. Japiot and Leboucher	1717	621 .33
III. **Organisation for carrying small consignments of goods and the most suitable methods for their delivery with the least delay. Use and selection of fixed and mechanical transhipping plants.** (Question VIII, 12th Congress). Report No. 3 (America, Great Britain, Dominions and Colonies, China and Japan), by E. Minsart.	1777	656 .212 6 & 656 .225
IV. **Co-ordination of operation as between heavy and light railways.** (Question XII, 12th Congress). Report No. 2 (All countries, except the Continent of Europe), by Mohamed Sobhi Ishak Effendi	1793	625 .61 (0
V. **The use of rail motor cars on secondary railway lines** (Question XIII, 12th Congress). Report No. 3 (Italy and Colonies; Africa except the British Dominions and Colonies, Mexico; South America), by Messrs. La Valle and Mellini	1801	621 .132.8 & 625 .616
VI. New books and publications :		
Statistik und Eisenbahn (Stat stics and railways), by Dr. K. Steuernagel	1821	313 : 385
VII. Obituary : **Don Felix Boix**	1822	385. (09.2
VIII. Monthly bibliography of railways	117	016 .385

No. 10. — October 1932.

I. **New rail motor coach with 300-HP. Diesel motor, mechanical transmission**, radial axles, type A2A, in service in Switzerland, by Ad.-M. Huo	1823	621 .43 (.494)
II. **One-man operation of electric locomotives and motor coaches** on Central European Railways, by F. Strauss	1830	621 .337
III. **All-metal rolling stock : carriages and wagons. Use of light metals and alloys Use of autogenous welding.** (Question VI, 12th Congress) Report No. 2 (All countries except America, Great Britain, Dominions and Colonies, China, Japan, Germany, Bulgaria, Denmark, Finland, Norway, Netherlands and Colonies, Rumania, Sweden, Czechoslovakia and Turkey), by R. Mariani	1839	625 .2 (0
IV. **Allocation of freight rolling stock. Investigation into the turn-round of goods vehicles. Separation of the elements included in it. Methods of reducing the period of turn-round.** (Question VII, 12th Congress) Report No. 3 (All countries except Belgium, Spain, France, Italy, Portugal and their Colonies, Luxemburg, Switzerland, Germany, Denmark, Finland, America, Great Britain, Dominions and Colonies, China, Japan, Sweden, Norway, Netherlands and Colonies), by J. Dolinar	1911	656 .223.2
V. **Instances of the application in a railway department of the scientific organisation of work. Co-operation of the staff towards increased efficiency and its participation in the profits.** (Question X, 12th Congress) Report No. 3 (Denmark, Norway, Sweden, Finland. Germany, Switzerland, Czechoslovakia, Bulgaria, Greece, Rumania, Jugoslavia, Turkey, Poland), by Messrs. Mereutza and Panaitopol	1923	385 .524 & 385 .587
VI. **Automatic train control and train stop. Track equipment Locomotive fittings. Methods used for repeating signals on the locomotives. Devices intended to ensure the attention of the drivers.** (Question IX, 12th Congress). Report No 3 (Belgium, Spain, France, Italy, Netherlands, Portugal and their Colonies, Denmark, Finland, Luxemburg, Norway, Sweden and Switzerland), by V. Vlaikoff	2023	656 .524

No. 10 — October 1932 (Continued).	PAGES.	NUMBERS of the decimal classification.
II. New books and publications :		
1. **Estudio y Construcción de Estructuras Metalicas** (*Metal structures : Design and Construction*), by Domingo Mendizabal	2047	624. (02
2. **Rangiertechnik** (*Technics of shunting yard*), by Professor Dr.-Ing. O. Ammann.	2047	656 .212.5
3. **Practical Railway Operating**, by T. Bernard HARE	2048	656 .2
4. **British Railways in boom and depression**, by C. Douglas CAMPBELL	2049	385 .1 (.42)
5. **La coordinacion del transporte mecanico por carretera con el ferrocarril** (*The coordination of mechanical transport by automobile and the railways*), by the Madrid-Saragossa-Alicante Railway Company	2049	656 .1 (.460) & 656 .2 (.460)
6. **Mathematische Methoden in der Eisenbahnstatistik** (*Mathematical methods in railway statistics*), by Hans KELLERER	2050	313 : 385
III. Official information issued by the Permanent Commission of the International Railway Congress Association :		
Meeting of the Permanent Commission held on the 23 July 1932.	2051	385. (06.111
Appendix : List of Members of the Permanent Commission of the International Railway Congress Association (23 July 1932)	2055	...
IX. Monthly Bibliography of Railways	129	016 .385

No. 11. — November 1932.		
I. **All-metal rolling stock : carriages and wagons. Use of light metals and alloys. Use of autogenous welding.** (Question VI, 12th Congress). Report No. 3 (Germany, Bulgaria, Denmark, Finland, Norway, Netherlands and Colonies, Rumania, Sweden, Czechoslovakia and Turkey), by E. Dähnick	2059	625 .2 (0
II. **Competition between or joint working of railways and airways, or railways and roadways.** An investigation from the technical, commercial and contractual points of view. (Question XI, 12th Congress). Report No. 2 (All countries except America, Great Britain. Dominions and Colonies, China and Japan), by F. P. Villamil and E. D'Ocon-Cortes	2113	656
III. **The relationship between the vehicle and the track to ensure safety at high speeds.** (Question III, 12th Congress). Report No. 2 (All countries except America, Great Britain, Dominions and Colonies, China, Japan, Germany, Denmark, Finland, Norway, Spain, Netherlands, Portugal and their Colonies, Sweden and Switzerland), by Dr.-Ing. Hynek Deyl.	2141	621 .135 (01, 625 .14 (01 & 625 .22
IV. New books and publications :
